Do the Right Thing... Reduce Hazardous Waste

Buy Smart

Purchase non-toxic or less hazardous products in only the amount you need. Look for alternative products that don't contain hazardous ingredients.

Store Properly

Toxic products are poisonous. Don't put your family's health and safety at risk! Keep products out of reach of children and pets.

Use It Up

Finish all unused products and recycle the empty containers or share with friends and neighbors.

Protect Our Communities

NEVER throw HHW into your household garbage, toilets or sinks; never dump on the ground or pour down the storm drain. It is illegal and HHW can seep into the groundwater, waterways, lakes, and rivers, causing contamination of our drinking water, beach closures and health hazards to swimmers.

Dispose Properly

Dispose of HHW properly at the free

RECYCLING

The recycling center at the township is open on Tuesday, Thursday and Saturday from 9 am to 3 pm. We are still experiencing issues regarding illegal dumping. Please do not place any recyclables outside the fence when not open. Some people are leaving trash outside the fenced area and we have had to call the authorities to report those who are doing this. The area where the recycling is located is now private property and is only being used with the owners permission. If this continues to be a problem there is a possibility that recycling could be shut down. We do not want this to happen so we all need to work together to continue to make this recycling area successful.
